

SCHOOL-BASED THERAPY

Developing All Children Into Successful Learners

In a shared partnership with educators and parents, Constellation School-Based Therapy works with children with special learning needs to achieve the fullest potential from their school experience. Through best practices in delivering educationally-related occupational and physical therapy services, we engage students in learning in the least restrictive environment possible. Our caring team of professionals has the desire and determination to improve children's school performance, helping them overcome even the most challenging educational obstacles.
